

Someone please tell me what's going on here. I read and now see that Sinclair Broadcasting's is preempting regular programming to show a negative documentary of John Kerry. This to me is prime example of media run amuke and someone hopefully you need to do something about this. If we allow media to have this type of influence then we no longer have a democracy and who wants to live without a democracy.

I thought our airways were meant for all Americans and not for someone to use as a personal political agenda. I urge you to take a look into the matter.

Sinclair's actions show why we need to strengthen media ownership rules, not weaken them. They show why the license renewal process needs to involve more than a returned postcard. Thank you.
